GLH:	86 - 101
Credit:	10
Cost:	£ tbc
There are no exams for this qualification.	

Course Aim

These qualifications are aimed at people considering a career in health and/or social care with adults or children and young people. Each builds on the knowledge gained from the previous qualification.

Offered in Schools or Colleges, they will develop knowledge and awareness of the types of provision in these sectors and the roles played by workers – from principles and values through to health and safety and working with others. There is also an option to take units in more specialised areas such as learning disability, sensory loss or mental health.

They do not qualify learners to work directly with adults, children or young people but provide a starting point for deciding whether a career in the sector is right for them. On completing the qualifications, learners who wish to pursue a career can progress to other Level 2 qualifications such as the CACHE Level 2 Diploma in Health and Social Care or the CACHE Level 2 Certificate for the Children and Young People's Workforce.

You will be assessed by your tutor or assessor using a range of methods. This could include tasks set by CACHE such as designing charts or leaflets, coursework or methods such as oral questioning.
